INTERNSHIP EXPERIENCE

Django Developer Intern

At Mevi Technologies

📅 April 2024 – May 2024

On-site 📍 Bengaluru

- Developed RESTful APIs to enable efficient communication between the frontend and backend, improving the performance of user requests by 30%.
- Implemented and Deployed interactive web-based applications using Django's Model-Template-View (MTV) architecture, contributing to real-world web development projects.
- Achieved certification upon successful completion.

PROJECTS

Gym Management System *Frontend: Bootstrap CSS, Backend: Django Python, PhpMyAdmin – MySQL* [🔗](#)

📅 July 2024

- Developed Project with two modules Admin and Users.
 - The admin module had full access to the software, including the ability to appoint users, add customers, and edit information, reducing errors by 30%.
 - Registered customers had secure access, sharing information about their subscribed plans, which led to a 30% improvement in user engagement.
- Conducted Manual Testing, optimizing overall system stability and efficiency by 20%.

E-Commerce Single Page Application *Frontend: Angular, Backend: .Net C#, SQL Server* [🔗](#)

📅 September 2024

- Developed Project with three key modules: Admin, Registered Customers, and Users.
 - The admin has full control to add, edit products, and dispatch orders.
 - Registered Customers can browse products, place secure orders, track shipments, and leave feedback, resulting in a 35% increase in customer engagement and effective feedback submissions.
 - Users can view products but must register through a simple signup form to order, contributing to a 15% growth in new user registrations.
- Performed Manual Testing, improving overall system stability by 30%.
